

Subject: SNRE Distinguished Achievement Award

Date: Thursday, September 15, 2011 at 2:06:02 PM Central Daylight Time

From: Humphrey, Stephen R

To: Victor E. Cabrera

Victor: I would like to award you the first SNRE Distinguished Achievement Award, for distinguished achievement in research, application, public service, or professional service by a SNRE alumnus. In your case, the recognition is for application of your doctoral research to your research on Wisconsin dairy farms and implementation of the optimization model there.

Would you be able to come to Gainesville to receive the award and give a short seminar? Available dates for a Tuesday afternoon presentation (in our order of preference) are 17-Jan, 24-Jan, 31-Jan. February dates are also possible.

We would pay the costs of travel and per diem. I would ask our current doctoral student Megan Brown to interview you to write a news/web story on your award.

What are your thoughts?

-Steve
